

BILLING CRITERIA & RATES, 2015/16

In order to reach as many schools and classrooms in Vermont as possible with energy literacy programming and support, VEEP asks for contributions to our work according to the fee schedule below, effective August 15, 2015, for school year 2015/16.

FREE WORKSHOPS

VEEP is able to bring **one fully funded in-class workshop** to any class in Vermont, thanks to the generous support of Efficiency Vermont, VLITE Foundation, Burlington Electric Department and others.

NEW fully funded in-class workshops for 2015/16:

- **Renewables and Careers** workshops in Career and Technical Education Centers and high schools (*thanks to the McClure Foundation*)
- **Climate Change Modeling** workshops in middle school classrooms (*thanks to the U.S. EPA* and the Acorn Fund*)

WORKSHOP FEES *(including materials and mileage unless otherwise stated)*

For additional in-class workshops, we ask schools to contribute as listed below. Grants and scholarships are available if a school is unable to pay. Historically, some schools have accessed PTA, professional development, or local business funding. VEEP can also work with a school on grants/fundraising for larger projects. Rates for Vermont schools are subsidized through support from VEEP's donors.

	Cost in Vermont	Cost outside of Vermont (PLUS mileage)
Workshops for K–3 grade (45–60 minutes)	\$150	\$180
Workshops for 4th grade and up (90-minute workshops)	\$175	\$225
Half day (2 back-to-back workshops)	\$250	\$340
Full day (2 or more workshops)	\$325	\$450

KIT RESTOCKING FEES

Kits of materials are available for use in schools. We ask schools to pay for restocking and upkeep of the kits at the following subsidized rates. This fee can be waived if it represents a hardship for the school. **VEEP charges for lost and damaged items in kits.**

	Restocking fee in Vermont	Restocking fee outside of Vermont (PLUS transportation costs)
Solar and Wind FUNdamentals kit for up to 2 classes	\$40	\$75
Solar and Wind FUNdamentals kit for 3–10 classes	\$80	\$150
PVs Clean and Green kit	\$40	\$75
Windworks kit	\$40	\$75
Solar Challenge kit	\$50	\$90
